# A NEW ERA IN BEAUTIFUL INTERIORS

Nearly 75% of the Plywood industry in India is dominated by organized players. Moreover, this industry, traditionally, has got a lower entry barrier that creates a large gap between what the consumers require and what they actually get. We have developed the range of Sylvester with unique features that make the products stand out while catering to the need of the customers.

## SYLVESTER MARINE

It is the most premium product from the House of Sylvester Ply. It is made from exclusive hardwood species bonded with BWP grade synthetic resin. This, clubbed with the revolutionary GLP technology makes it 100% borer and termite proof. It also undergoes pre-pressing that ensures the homogeneous spread of moisture and adhesive, thus making it warp-free. Besides having a higher face thickness and no core gaps, this product comes with a 25 years warranty.

 **Sylvester**<sup>®</sup>  
PLY | BOARD | DOOR

# ADVANTAGES

- Glued Core Protection technology for complete protection against borers and termites. IS 710 superior BWP Marine grade plywood.
- Manufactured using specially selected high-density timber for superior strength and higher screw holding capacity along with heavy load-bearing capacity.
- Bonded with superior un-extended PF resin that endures toxicity in every layer, thus inhibiting attack from borers and termites from outside and inside.
- High resistance to all climatic conditions for preventing warping and bringing dimensional stability.
- 4 times pressing process for a smooth finish with laminates and veneers. Superior smooth surface and no undulation.
- Gurjan Face Veneer for the unmatched finish.
- 25 years warranty.

## TECHNICAL SPECIFICATION

Specific Gravity	Approx .075
Adhesive	Unextended Phenol Formaldehyde resin (IS : 710)
Moisture Content (%)	8-12%
Water Absorption (%)	<5
Bonding	Guaranteed for lifetime serviceability
Veneer to Veneer ratio	As per standard
CSS Wet Test(kgf)	>120
Preservative treatment	Two tier treatment 1. Clued core protection 2. Finished panels are treated with ACC
Clue Shear Strength (kgf)	>145
Mycological Test (kgf)	>120
Cap.Split.Overlap,Wrap	Nil

### Standard Thickness:

4mm, 6mm, 9mm  
12mm, 16mm, 19mm  
25mm

### Standard Sizes:

8ft x 4ft	8ft x 3ft
7ft x 4ft	7ft x 3ft
6ft x 4ft	6ft x 3ft

# CLASSIC CLUB

## SYLVESTER CLUB

This Boiling Water Proof grade product has better multi-tasking abilities than an ordinary ply to suit different climatic conditions. Bonded with PF (Phenol Formaldehyde) resin, it can withstand alternate drying, wetting & other temperature variations.

Sylvester Ply is made from 100% hardwood and gets the unique CCP technology treatment making it fully Borer Proof and Termite Resistant. It comes with a 15 years worry-free warranty and is not only manufactured in accordance with IS-710 but also has a higher load bearing capacity Making it perfect for use in all architectural as well as home decor purposes.

 **Sylvester**<sup>®</sup>  
PLY | BOARD | DOOR

# ADVANTAGES

- Glued core protection for borer proof & termite resistance.
- Bonded with superior grade synthetic adhesive for higher strength & durability
- Manufactured using specially selected high density timber.
- High resistance to all climatic conditions.
- Double pressing process for smooth finish.
- Superior surface finish.
- 15 Years warranty.

## TECHNICAL SPECIFICATION

## SYLVESTER BLOCK BOARD / BWP

This premium block board product is made from pinewood and comes with 100% Gurjan face veneer alongside Gurjan core, which are full core & full panel veneers. This product has been manufactured with Glued Core Protection (GCP) technology, which makes it 100% borer-proof and termite resistant and comes with unmatched quality. Bring home not just the block of strength but a board of endurance!

Parameters :	Block Board BWP Grade
ISI:	IS 1659:2004
Moisture Content(%) :	5% to 15%
Water Resistance Test:	Excellent
Adhesion of Plies :	Excellent
Modulus of Elasticity [N/mm <sup>2</sup> ]:	5000
Modulus of Rapture [N/mm <sup>2</sup> ]:	>50
Water Absorption :	<1%
Nail Holding Strength :	>50Kg
Screw Holding Strength :	>80Kg
Standard Thickness [mm] :	19 & 25
Standard Sizes[mm x mm] :	2440x1220, 2440x920, 2140x1220, 2140x920, 1840x1220, 1840x920
Special Features	
Process Compliant :	ISO 9001; ISO 14001 &. OHSAS18001

PLY | BOARD | DOOR

## SYLVESTER BLOCK BOARD/BWR & MR

This durable Boiling Waterproof grade block board has superior attributes to resist any climatic conditioning. This product is available in both pinewood as well as hardwood and comes with Glued Core Protection (GCP) technology.

Parameters :	Block Board MR Grade
ISI:	IS 1659:2004
Moisture Content(%) :	5% to 15%
Water Resistance Test:	Excellent
Adhesion of Plies :	Excellent
Modulus of Elasticity [N/mm <sup>2</sup> ]:	>4000
Modulus of Rapture [N/mm <sup>2</sup> ]:	>40
Water Absorption :	<2%
Nail Holding Strength :	>500N
Screw Holding Strength :	>100Kg
Standard Thickness [mm] :	19 & 25
Standard Sizes[mm x mm] :	2440x1220, 2440x920, 2140x1220, 2140x920, 1840x1220, 1840x920

Special Features	
Process Compliant :	ISO 9001; ISO 14001 &. OHSAS18001

## SYLVESTER FLUSH DOOR

Sylvester Flush Door is a premium product made from selected veneers, well seasoned wood and is bonded with PF Resin. To improve durability, chemical treatment is being given and is pressed under high pressure and temperature to make the Flush Door resistant to termite, wood borers and cyclic changes. It is ideally suitable for both indoor & outdoor, domestic and commercial establishments. Both side decorative & non-decorative respectively. It is structurally and dimensionally stable 100% BWP product available in Standard Sizes as well as Standard Thickness as per end users requirement. It comes with 10 years of warranty.

Moisture Content(%) :	10% to 12%
Flatness of shutter: than 1 mm	Not more
Local Planeness :	Within 0.5 mm
Squareness of Edge straightness:	Within 2% limit
Water Absorption :	<1%
Nail Holding Strength :	>500N
Screw Holding Strength :	>1250N
Specific Gravity :	0.60
Knife Test :	Excellent
Glue Adhesion :	Excellent

# "Terms & Conditions"

## General Terms and Condition of Warranty:

We confirm that Sylvester range of plywood is treated with the best possible formula against termite and borer. Sylvester plywood resists more against termite and borer than un-treated plywood.

## Warranty against TERMITE and BORER

1. Immediately on the purchase of goods, the purchaser would get eligible for the warranty extended by Sylvester Plywood.
2. This warranty is valid for a specified period as per the product ID for the date of purchase against specified defects only.
3. The purchase of 'Sylvester' products must be registered with the company within 1 month form the date of purchase.
4. In case of any complaints, the consumer shall notify the company in writing along with the evidence of purchase (Invoice Copy).
5. Upon the receipt of the complaint, Sylvester Plywood reserves the right to depute their authorized representatives to the consumer's premises for physical examination/verification of the allegedly damaged portion of the material.
6. The company reserves the right to take samples form damaged portion of the product for further testing at its own laboratory or any other renowned laboratory in India.
7. The findings of authorized personnel and the testing facility would be binding and final for all the parties. The authority to establish the claim and process of warranty rests solely with Sylvester Plywood.
8. Any claims regarding additional cost incurred on the material during the process of conversion into various articles, either on labour or on any other complimentary material like paints, lacquer, polish, hardware, laminates, veneer, fittings, varnish or any other goods how ever used with "Sylvester" products or any other loss described, will not be covered under this warranty.
9. The company will in no event be liable or obligated for payment of any special, incidental or consequential damages. The company expressly denies the right of any person to incur or assume for it any other liability or obligation in connection with in connection with sale of Plywood and other Wood Panel Products.
10. Upon physical/chemical examination verification and testing, if it is established that the plywood/block board is a genuine product of Sylvester Plywood and the damages occurred to the alleged material falls under the specified terms and conditions of warranty, the same will be replaced by the company in equal quantity of the plywood which has been actually damaged.
11. Claims if any, to this warranty shall be made before courts having jurisdiction in KOLKATA only.
12. This warranty automatically terminates on the expiry of the warranty period of specified product, even in case the plywood or other wood panels are not being used in the specified period.
13. Warranty does not extend to damages from causes such as floods, earthquakes, fire or force majeure.
14. Warranty is not applicable in case of keeping plywood or furniture on 'kachha flooring', keeping close proximity to water or moisturized conditions or any other similar contingencies and severely pest infected environment. Bad workmanship, inappropriate use of cutting and finishing tools also makes warranty void.
15. Warranty does not cover normal wear and tear, impact damages, physical damages, storage led bending, Seepage driven damages, improper handling or abnormal use. Warranty is also not applicable if guidelines for the usage of the specified product is ignored/not followed.
